Work Experience

iiko Sep 2025 - Aug 2026

Junior Backend Developer

- Developed and maintained backend SaaS systems for online ordering and payment processing.
- Implemented REST APIs, business logic, payment flows, and payment callback handling.
- Worked with PostgreSQL, SQL, Docker, Git, and integrations between backend services.
- Contributed to API contract design, data validation, and code review.

Academic & Personal Projects 2024 - 2026

Node.js / TypeScript Development

- Built server-side applications and REST APIs using Node.js, Express, and TypeScript.
- Worked with routing, asynchronous workflows, JSON processing, and database integrations.
- Used PostgreSQL/SQL, Git, and Docker in projects and local development environments.

Education

Immanuel Kant Baltic Federal University 2022 - 2026

Bachelor's degree in Information Security (10.03.01)

Specialization: Organization and Technology of Information Protection

Interests

Travel, languages, jazz

Technical Skills

- Node.js
- TypeScript
- JavaScript
- Express
- REST / HTTP / JSON
- PostgreSQL / SQL
- Docker
- Git / GitHub
- Linux
- OOP
- Unit testing
- Python
